

M740 "The Manager"

M740

The M740 is a multiline, multi-key digital phone, ideal for users who make and receive large numbers of calls. A complete high-performance tool, the M740 is simple

to use as a result of its novel navigation system, similar to that of a cellphone. The result: genuine efficiency for every Manager!

The keypad layout of the M740 is based on systems used by cellular telephones with navigation keys for menu access: 4 arrow keys and a central "OK" key to confirm a selection. This terminal is the first in the line to offer a full-duplex hands free function and a headset socket.

M740 "The Manager"

Presentation
